

TINGER TRACK

ALWAYS YOUR COMPANION

A TRUE RUSSIAN ALL-TERRAIN VEHICLE

Tinger is a unique Russian innovation, incorporating state-of-the-art technology and world expertise in the manufacture of off-road vehicles.

TRACKED CROSS-COUNTRY VEHICLES, SNOW
& SWAMP BUGGIES, ALL-TERRAIN VEHICLES,
AMPHIBIANS.

The snow & swamp buggy is designed and manufactured by ATV maker Tinger, in the city of Cherepovets, the steel capital of Russia. We strive to ensure the highest quality. That is why we use the best components.

BOG
UNIQUE
NO BARRIERS

COST-EFFECTIVE AND EASY MAINTENANCE

Tinger ATVs are versatile means of transportation. Due to their technical features, they can perform a number of tasks aimed at overcoming obstacles along off-road terrains.

IT CAN EASILY REPLACE 5 VEHICLES. The ergonomics of the all-terrain vehicle is one of the key and important advantages in the list of its key features. Tracked cross-country vehicle Tinger does not take up much space. It is easy to operate and can be modified with accessories.

 **AMPHIBIAN**
for movement on water

 **SNOWMOBILE**
for unimpeded movement
along snow-covered terrain

 **QUAD BIKE**
almost for any off-road terrain

 **TRACTOR**
for transportation of building materials,
snow removal, working at a country house
and in the garden

 **SWAMP BUGGY**
used to traverse boggy swamp terrain

RAVINES

NO MORE OFF-ROAD TERRAIN

Tinger is a true all-terrain vehicle that easily traverses any off-road terrain. A field, desert, tundra, bogs, rivers or ravines – all these terrains are natural environment for Tinger. You don't need to choose your routes because Tinger deals with any terrain perfectly. For Tinger, there is no bad weather. It is solidly weatherproof!

Just choose your purpose: travel or transportation, leisure, recreation or country affairs, Tinger will take care of the rest.

FISHING: YOUR CATCH IS GUARANTEED

What interests a true avid fisherman? Choosing fishing tackles and equipment. Fishing spots. Baits. Ice thickness during winter. And most importantly: a good catch. A fisherman shouldn't worry obstacles, fords and gullies.

Tinger can easily handle any potholes, dense thickets, and trembling bogs. Now, you can fish at any time of the year with pleasure. Tinger isn't afraid of any dirt or snow porridge, ice, or swept-up terrain.

CHOOSE NATURE
YOUR DESTINATION

ALL SEASON

INCREDIBLE OFF-ROAD CAPABILITIES

HUNTING; ONLY THING LEFT IS TO FIND A PREY

Tinger's incredible manoeuvrability makes the ATV a perfect choice for hunters who climb through the most impassable terrain in search of prey. Tinger is suitable for any hunting season: spring, summer-fall, winter.

Different types and methods of hunting characterize each of the hunting seasons. Tinger is the only choice always suitable: for washed-out roads, icefields, and for any off-road.

NO FEAR FOR BOGS AND SWAMPS

With the onset of spring, areas are flooded with high water levels. It sometimes prevents movement by land and forces one to change his earlier-planned route. Versatile amphibious ATV Tinger easily traverses the water surface of flooded spring areas thanks to its advanced technical capacities. Tinger offers a comfortable journey to any area.

In the shade of forests and viscosity of impassable swamps, the reliability of Tinger's wide tracks and its low ground pressure will be a significant factor in easily passing through inaccessible swamps and bogs. Accessories, such as winches, LED and fog lights, skid plate and bilge pump will add confidence and help you smoothly drive through obstacles along your route.

When picking berries and mushrooms, every person, even the most pretentious, can appreciate the space behind the front seats, which will allow you transport large number of crops.

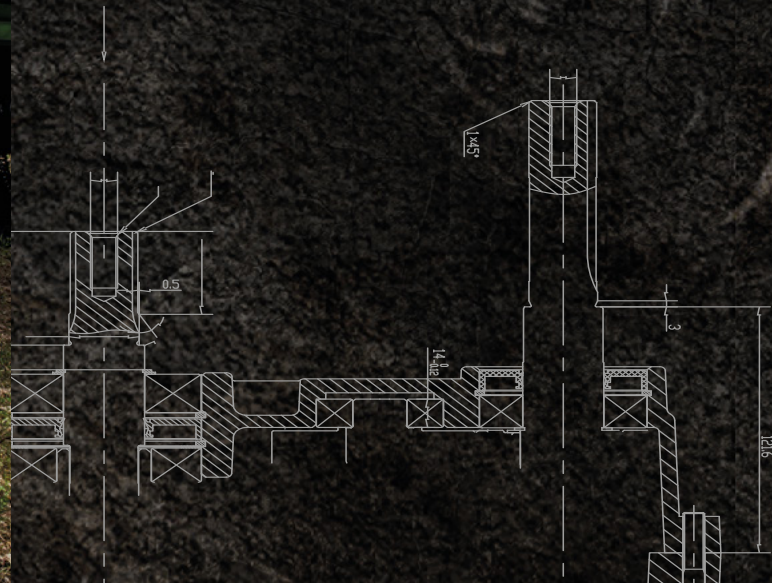

COUNTRY HOUSE AND GARDEN

Thanks to efficient maneuverability and range of accessories, ATV Tiger can be used by gardeners, farmers and owners of private homes at any time of the year. The ground pressure of the Tiger ATV is 3 times lower than that of a person. With Tiger, you can work without damaging the surrounding landscape. With a tow hitch, you can easily install necessary towed devices: cultivators, plows, rakes, seeders.

With the onset of winter and rainfall, the easy-to-use blade and good mobility will help you clean up snow from an area and turn your garden activities into fun.

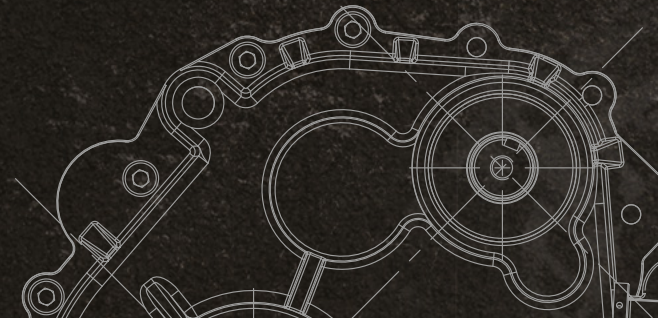

ADVENTURE & WILDLIFE

The Tinger T4 trailer is unique: its impact-resistant casing made of high-strength plastic, reinforced frame design and low-pressure tires allow you operate the trailer without any restrictions in terms of terrain and time of year.

Tinger T4 will easily and safely deliver the necessary cargo to its destination. It will become an indispensable tool for field trips, hunting and fishing. The trailer can be equipped with soft seat that can be transformed into a bed. 8 people can comfortably lie and rest on the seats. A special ski module allows the trailer to traverse winter expanses, while its sealed canopy will protect you from wind and snow. Winter fishing and hunting has never been so comfortable.

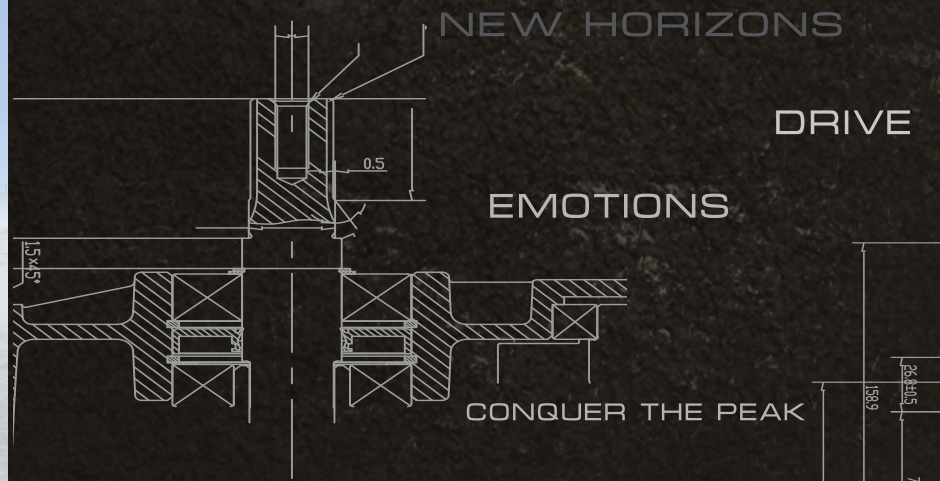

FREEDOM OF MOVEMENT

Tinger offers you the opportunity to discover new skiing routes and to easily conquer almost any snow-covered hill. Tinger will within a short time bring your entire team to the starting point.

Tinger is a perfect choice for families, who prefer active recreation in the vast wilderness. Any family member can operate Tinger ATV without technical difficulties. The basic principle of operating the all-terrain vehicle can be explained in 30 seconds.

Thanks to impressive technical characteristics, Tinger will bring you a lot of fun when driving at high speed on rough terrain, giving you a competitive spirit and a sense of superiority in a tense race.

TINGER. ACTIVE RECREATION.

UNIQUE DESIGN

The technical features of the rover enables it traverse any previously impassable obstacle, each time adequately responding to the call of nature. The versatility of the subframe allows you to install all the elements on it: powerful engine, transmission system, variator, and other devices.

Reliable rubber tracks with metal cord and high cleats provide a perfect ride in very extreme conditions. The crawlers are easy to operate: the component elements are highly unlikely to rupture and there is efficient movement.

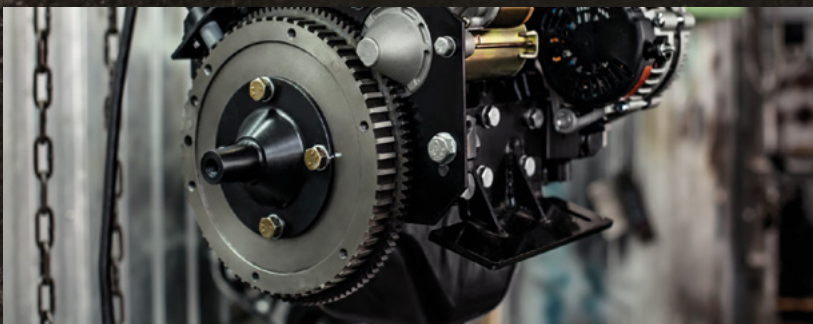

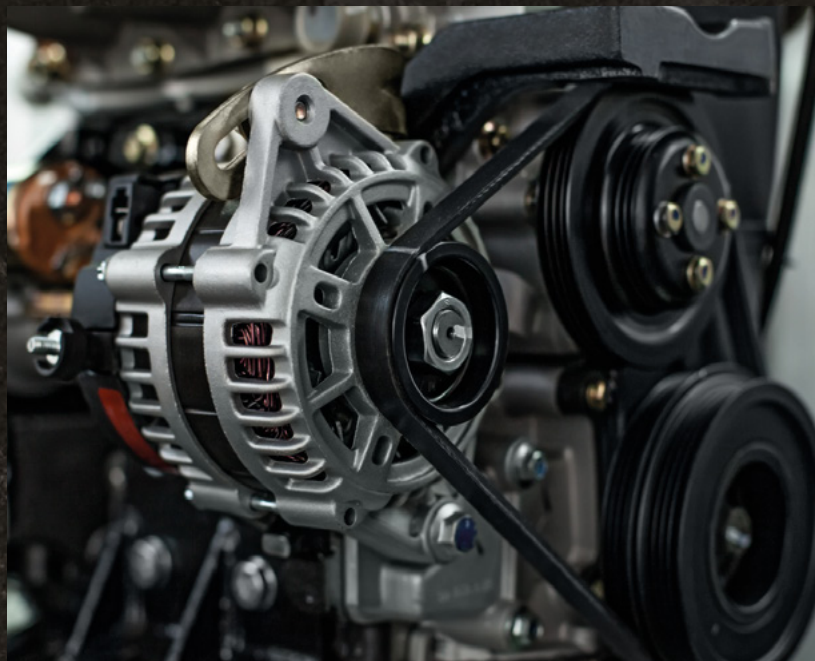

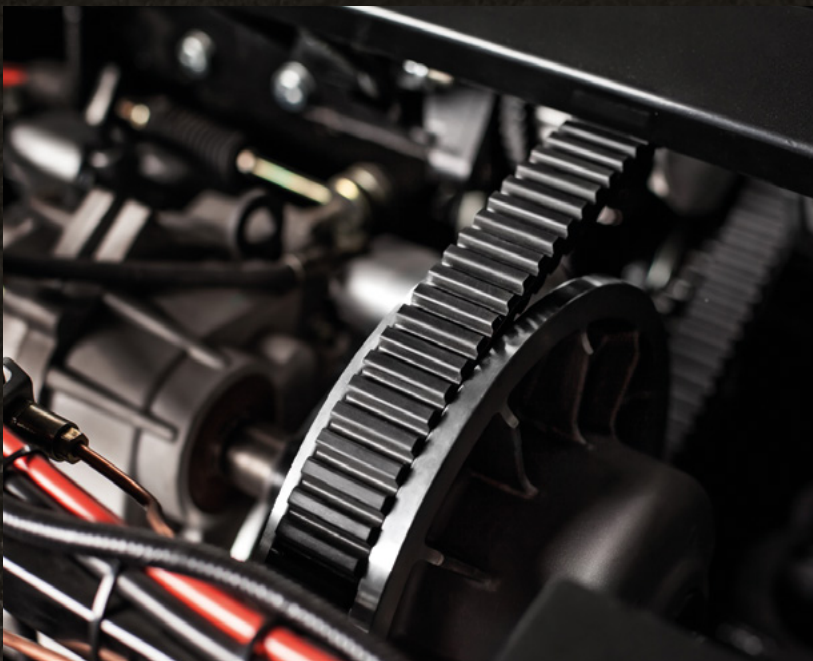

The machines are equipped with reinforced dual torque transmission, preventing stretching, thereby improving the quality of the chassis, saving time for adjustment and tightening. The convenient location of the canines allows to reliably throwing into gear. It provides a smooth ride.

Suspension brackets with spring-loaded elements and course of 180 mm makes it easy to overcome obstacles in a rough terrain with ease. Tinger suspension bracket is equipped with aluminum rollers, each with a protective dust cover, which creates an impenetrable protection against water, thus ensuring that this structural unit is reliable and durable.

The reliable seats are convenient for the driver and passengers: the seats are durable and can withstand high load.

Tinger is the first amphibious tracked vehicle, which has protection made of super-resistant plastic HDPE: provides increased safety for important technical components that are involved in the entire power potential.

GENERAL INFORMATION

HIGH QUALITY SERVICE AND MAINTENANCE

High-tech and modern equipment are used for the production of Tinger ATVs. These equipment allow us manufacture the products in accordance with the best standards, ensuring a high level of reliability during operation.

COMPETENT STAFF

The dynamically developing field of advanced technology has made us to continuously engage in professional development for our staff. The manufacturer of Tinger ATVs provides high-quality professional training for staff based on actual information data, reaching a new level of efficient production and service activities.

SAFETY AND COMFORT

Production of high-quality materials using modern technological processes ensures safe, comfortable and easy handling of the vehicle.

ORIGINAL SPARE PARTS AND MODIFICATIONS

One of the important key features of the versatile Tinger ATVs is that the manufacturer uses original spare parts and accessories for modification of the vehicle.

GUARANTEES OF LONG-TERM OPERATION

The use of reliable structural elements and production approaches in Tinger assembly ensures high level of quality and long-term use in all operating conditions.
